

Alan Delcorse of

Equilibrium Investment Management

invites you to our market update conference call:

“Market Overview- the trends and opportunities”

The conference call: In this national conference call we will hear from **Joseph G. Cronin of the American Funds** and hear their thoughts on the economy, the “traditional” markets and opportunities in today’s economic environment.

Our Approach: As many of you know, we have a strong history in utilizing non-traditional investments to create greater diversification and take advantage of the benefits of non-correlation to traditional markets. The foundation of what we do, however, is based upon the core investments of equities for growth and bonds for income and stability.

American Funds is one of the largest mutual fund families and one of the oldest in the world as they created their first mutual fund in 1934. They utilize a unique multi-counselor approach to managing portfolios and have an extensive global presence.

Guest Speaker: Joseph G. Cronin, Vice President of American Funds Distributors, Inc., will be our speaker and will be available for questions afterwards.

Your co- host: Alan Delcorse has over 25 years of experience in the investment industry. As the Managing Director of Equilibrium Investment Management he incorporates a balanced approach between traditional and non-traditional investments to create a more “intelligent “ portfolio.

Conference call date: **Friday, July 9th, 2010**

Start time: **10:00 am(CDT)-10:30 am** with Q+A to follow

Call-in number: We will provide you with this number as you RSVP

RSVP: **Rebekah Rubin by July 7th- 312-264-4332 or rrubin@upsecurities.com**
